

## Important Points to Remember

- **PINPOINT Wireless Thermometer** utilizes a remote sensor with a waterproof probe. This device has been tested and is in full compliance of FCC Standards. FCC ID #Z9Z687000
- **PINPOINT Display Monitor** is NOT waterproof and must be operated on a dry surface. The **PINPOINT Remote Sensor** is weather resistant but must not be submerged under water. Liquid contact with any of the printed circuit boards will cause corrosion and void the warranty.
- When the batteries are replaced in the **PINPOINT Display Monitor**, or if the monitor loses contact with a remote sensor (display will show "---"), the remote sensors must be re-registered.
- The **PINPOINT Remote Sensor** has a small red light on the front label that will blink when the sensor is transmitting a temperature signal. To re-register this sensor, first select the sensor by pressing the sensor select button on the display meter (Figure D) until the LCD begins to flash ---. Then by using the smooth end on the back of the supplied screwdriver, press the TX/HOLD RESET on the remote sensor (Fig. F) for approximately 3 seconds. Damage will occur if any other device is used. When the **PINPOINT Display Meter** receives a temperature signal from the **Remote Sensor**, the tower icon (Fig. H) will blink on the LCD.
- When --- F° appears on the display; this indicates that the remote signal has been lost perhaps due to distance, etc. To re-register this sensor, press the sensor select button (Figure D) until the LCD --- begins to flash. Then press the TX/HOLD RESET (Figure F) with the back end of the supplied screwdriver for about 3 seconds.
- **Display Range:** -50 C° to 70 C°, -58 F° to 158 F°  
**Resolution:** 0.1 C°, 0.2 F°  
Replace batteries in the **PINPOINT Temperature Display Meter** when the LCD display appears dim, approximately 1 year. Replace batteries in the **Remote Sensor** when the battery icon on the LCD display (Figure I) appears empty, approximately 1 year.
- **FCC Declaration of Conformity**  
This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:  
1-This device may not cause harmful interference  
2-This device must accept any interference received, including interference that may cause undesired operation.

## Warranty

**PINPOINT Wireless Thermometer**™ by American Marine Inc. is warranted to be free of defects in material and workmanship for a period of 2 years from date of sale.

**PINPOINT Wireless Remote Sensor** is warranted to be free of defects in material and workmanship for a period of 30 days from the date of sale. Corrosion on the printed circuit board will void warranty. Positive proof of purchase is required for warranty claim.

American Marine Inc. will not be liable for any costs of removal, installation, transportation charges, or any other charges, which may result in connection with a warranty claim.

American Marine Inc. will not be liable for any damage or wear to products or livestock caused by abnormal operating conditions, water damage, abuse, misuse, unauthorized alternation or repair or if the product was not installed in accordance with the printed operating instructions.

Any defective product must be sent freight prepaid with appropriate documentation supporting the warranty claim. Replacement or repair will be at the discretion of American Marine Inc.
